Career Objective
Aspiring web developer eager to build engaging websites, apply skills, and grow through an internship.

Projects

CalorieCalc (Calorie Calculator and Tracker)
HTML | CSS | Bootstrap 5 | JavaScript | mySQL | PHP | Laragon

- Developed a responsive front end with real-time calorie tracking and an intuitive meal-tracking UI
- Built a PHP/MySQL backend for reliable user data storage and profile management

PokéDex (Pokémon Details Finder)
HTML | CSS | JavaScript | React | PokéAPI

- Created a PokéDex web app with HTML, CSS, JavaScript, and React for a dynamic UI to display Pokémon details
- Integrated PokéAPI for real-time search and exploration of Pokémon data (image, type, moves, stats)

Online Compiler
HTML | CSS | JavaScript

- Developed a web tool that lets users write, compile, and execute code in their browser.
- It supports languages like HTML, CSS, and JavaScript, allowing easy testing and sharing without local setup.
